About Us

PsOne™

Straightforward and safe

The PsOne™ System consists of a set of Pedicle Screws, Rods, Set Screws and instruments. PsOne™ is specially developed for temporary or permanent correction or stabilization of the vertebral column from the thoracic to the sacrum and with the aim of helping consolidation or bone fusion. In combination with a lumbar cage, PsOne™ bears the intervertebral loads and facilitates osteosynthesis.

PsOne™ offers the surgeon a straightforward and safe technique. The set offers Mono Screws, Poly Screws and Reduction Screws.

Apollo Swiss Medical

Swiss precision at a reasonable price

Apollo Swiss Medical is a Swiss-based manufacturer of quality spine surgery products. Our experienced medical engineering staff come up with innovative, cost-effective solutions that help surgeons perform implantations with superior effectiveness and reliability.

Our Commitment

Medical practice, therapy center, hospital, academic institution: We care for our customers! To ensure that we can always offer the best possible quality in our products, technology and services, we continually exchange views with practising physicians and researchers and benefit from this wide experience.
