| Code                  | Description  | Size                  |
|-----------------------|--|-----------------------|
| PH0805 ~ 0809         | Artfix Spinal Stabilization Pediculaire Hook,Small             | 8x5 mm~ 8x9 mm        |
| PHF505 -507           | Artfix Spinal Stabilization Pediculaire Hook,Flexible          | 5x5mm-5x7 mm          |
| LH0505 ~ LH0711       | Artfix Laminar Hook Small W/Narrow Blade                       | 5x5mm ~ 7x11 mm       |
| LHL709 ~ LHR711       | Artfix Laminar Left/Right Angled 20° Small Hook W/Narrow Blade | 7x9mm ~ 7x11 mm       |
| LHF505-507            | Artfix Spinal Stabilization Laminar Flexible Hook              | 5x5 ~ 5x7 mm          |
| ICC                   | Artrofixs Plate Transverse                                     |                       |
| LPLH1455 ~ 1575       | LAFIN SPINAL Pediatric Laminar Hook                            | 4.0 x 5,5~ 5.0 x 7,5  |
| LPPH750 ~ 1970        | LAFIN SPINAL STABILISATION pediatric pediculaire hook          | 7x5 ~ 9x7 mm          |
| HPS4055 ~ 5075        | ARES SPINAL stabilization cervical posterior hook              | 4.0x5,5 ~ 5.0x7,5 mm  |
| LKT15-20              | ARES lateral rod-rod extension connector                       | 15 mm- 20 mm          |
| OCN10                 | ARTFIX SPINAL multiaxial connector                             |                       |
| LCN15-20              | ARTFIX LATERAL-extension connector                             | 15mm-20 mm            |
| ECN01-04              | ARTFIX LATERAL- extension connector extension                  | 1ROD-2ROD             |
| LPHTLK ~ L - LPHTRK~L | LAFIN pediatric pediculaire Left/right Hook                    | Small ~ Large         |
| PHTPRK ~ U            | ARTFIX pediculaire polyaxial hook transverse                   | Short ~ Tall          |
| APHSK ~ U             | ARTFIX pediculaire sacral hook                                 | Short ~ Tall          |
| AEKPSK~ U             | ARTFIX polyaxial flexible sacral hook                          | Short ~ Tall          |
| LPPHK~ B              | LAFIN pediatric pediculaire polyaxial hook                     | Küçük ~ Büyük         |
| APHTK ~ U             | ARTFIX pediculaire hook transverse                             | Short ~ Tall          |
| ARTAKS1-2             | ARTFIX lateral-extension connector axial                       |                       |
| CPTRK ~ B             | ARES cervical posterior transverse connector                   | Small ~ Large         |
| HPSS4055 ~ 5075       | ARES posterior cervical hook                                   | 4.0 x 5,5 ~ 5.0 x 7,5 |
| DKN01-02              | ARES extension domino connector                                | 1-2                   |

Artrofix Spinal System consists of pediculaire, reduction, multifunctional screws and cannulated, cement enjectable, pediatric and semi-spherical screws. Pediculaire screws are in two forms as monoaxial and polyaxial. Other parts of the system; transverse and multi-axial connectors, hooks, lateral and domino connectors, omniaxial lateral connectors, flexible hooks, sacral screw and links and as well as rod and locking kits.

- \* Easy implementation and locking
- \* Self tapping screws from 3 points
- \* Rod lengths from 40 mm to 600 mm
- \* Wide range of hooks for all locations
- \* Simple and logic instrumentation

| Code                  | Description   | Size                   |
|-----------------------|---|------------------------|
| SLT3520-85100         | Solart Posterior Spinal Stabilization Polyaxial Screw                 | 3,5x20 mm ~ 8,5x100 mm |
| LSS4520-8100          | Lotus Polyaxial Spondylolysis Screw                                   | 4,5x20 mm ~ 8,0x100 mm |
